

# CASE STUDY

## Custom Wall Mural

**Location:** Auburn, WA  
**Designer/Fabricator:** D10 Signs & Graphics

D10 Signs & Graphics, located in Kirkland, WA, has been working directly with owners and architect firms for over 15 years, designing, fabricating and installing everything from wall/window graphics, interior room signs, interior/exterior lit signs, reception signage, and large monument signs.

When the company was approached by Thomas Jefferson High School to create a wall mural, D10 Signs & Graphics first laminated the artwork themselves. Unfortunately, the panels warped and were beyond use. Thankfully, iZone Imaging was able to provide the necessary panels to get the job done, offering a high pressure laminate solution that was impervious to moisture, extremely durable, easy to maintain, and covered by a 10-year warranty. Project Manager, Dustin Deer, would *“definitely recommend doing it that way (the use of iZone’s Panels) on any future projects”*

Thanks to the combination of iZone’s HPL and D10 Signs & Graphics vision, Thomas Jefferson High School’s students and visitors will be able to enjoy this incredible mural for years to come!
